Enterprise Rancheria Local Supporter Approved Quotes – Governor’s Concurrence

Local Government

“The Yuba casino project will have a huge and immediate positive impact on our community and economy. Yuba County and the Enterprise Rancheria have worked as full, respectful partners for nearly a decade to bring this project and the accompanying jobs to our region. The Governor’s concurrence is an important step forward in the process that started with our ‘gold standard’ Memorandum of Understanding (MOU) agreement with the Tribe in 2002.”

- Yuba County Supervisor Mary Jane Griego, District 3 (Cell 530-749-1557, dukesdiner@comcast.net)

“By this decision, Gov. Brown has “done the right thing” and put the people of Yuba County before special interests. He has made a strong moral decision for all of the Native Americans of Yuba County and our Region. This decision will bring much-needed jobs to Yuba County and Marysville. As the former Guardian for Yuba County, I know how difficult life is for some local residents and how much the \$5 million a year to the county and \$250,000 a year to our city will help.”

- Ms. Chris Bellici, City of Marysville Council member, (530-741-3044, christinabileci@comcast.net)

Local Business and Labor

“The Yuba Sutter EDC has long supported the Enterprise project and the concept of creating a regional entertainment marketplace which, as a destination resort, will promote local tourism with a new hotel, restaurants, night clubs, gift shops, meeting space, gaming and more. The Governor’s concurrence brings us closer to realizing that dream for Yuba County.”

- Brynda Stranix, Executive Director, Yuba Sutter County Economic Development Commission, (Cell 530 713-3375, bstranix@ysedc.org)

“As a local real estate agent, I know the Enterprise development project is the key to starting development in South Yuba County. Yuba County desperately needs to add jobs and improve quality of life (the main reason for people to want to live and work here). This project will be the springboard to the rest of area developing. With the Governor concurring, we can start to make this happen.”

- Mr. John Taylor, Chairman, South Yuba Economic Development Committee (Cell 916-826-1791, jptaylor6@comcast.net)

“The Enterprise hotel and casino resort will inject nearly \$186 million in front-end, private development investment and 1,300 construction jobs into a regional economy and building industry slammed by the recent recession. We thank Governor Brown for his concurrence of the Enterprise project.”

- AC Steelman, IBEW Local 340 (Cell 916-927-4239, ACSteelman@ibewlocal340.org)

Local Community

“As a frontline, community-centered provider of health, education, and economic services for individuals and families, I know first hand that Yuba County needs the jobs, economic growth, and community funding the Enterprise project promises. I applaud the Governor’s concurrence that will support our vision of building an active, healthy, sustainable community that individuals and families are proud to call home.”

- Rachel Farrell, CEO of Harmony Health (530-743-6888, farrellrachel@comcast.net)
